

Denis T. - Professional Software Engineer

dev@denis-it.com

SUMMARY

Full-stack software engineer with wide experience in many technologies and languages.

I am following T-shaped skills model - I mostly excited about Scala and its ecosystem (Scalaz, Cats, Shapeless, Akka, Slick, Doobie, etc.) so I spend much time working with it. I am also keeping up in C and Javascript / Node.js trends and can start working with them very quickly. I read some news and watch videos about other technologies from time to time to have wide area of thought (Python, PHP, Perl), but I do not use all of them in my every day work. I am free to use Linux, Mac OS or Windows and ready to work with Git, Jenkins, Circle, Bugzilla, Redmine, Jira, Bamboo, Trello, GitHub or BitBucket.
